---

4 Using microSD Card

· Insert your card into the microSD slot until it clicks into place. When ready for use, it's OK.
· Remove microSD Card
· Close all applications or documents which have been opened on the card. Press Menu → Settings → Storage → Unmount SD card → OK.

Note:

Don't insert and remove the SD card repeatedly in a short time, as this may cause damage to the card.

---

5 Getting Started

Charge the device

Note:

You cannot charge the battery using the USB cable.

You can use the device while the battery is charging, although the charging time is longer when operating and charging at the same time.

- Plug the power adapter into an electrical wall outlet named DC, and then connect to the device to fully charge the battery before use (approx. 4hour).
- While charging, the battery indicator light is red. When fully charged, the battery indicator light is off

Turn the device on

Press the power button and hold for 2 seconds.

Start Wi-Fi Network

- Turn on Wi-Fi

Since many features require a Wi-Fi connection, we recommend you set up your Wi-Fi network now.

Press Menu → Settings, → Wireless & network.

Check Wi-Fi to turn on.

- Connect to Wi-Fi

The device automatically scans and lists all local Wi-Fi Network found. A 🔒 indicates secure networks that require login name/password to connect.
1、Tap the desired network to which you want to connect, → enter the Network Password if applicable, → tap Connect.

2、Tap back key to return to the Home screen.

Note:

If your Wi-Fi network is set as hidden, it won't be found by the auto scan. Tap Add Wi-Fi network and follow the prompts to add your network

   Each account is listed, along with the number of unread messages in your Inbox

Touch to save as a draft

Touch to send the message

Address the message

Enter the message
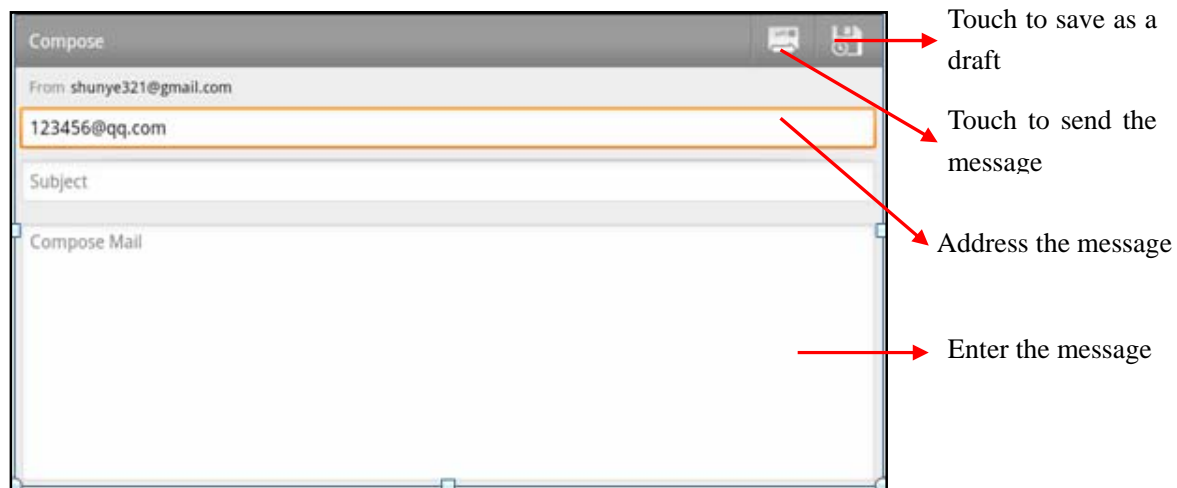

2. Touch the account that contains the email you want to read.
    Note: *Here we only have one accounts.*

● **Read a message**

Touch a conversation that contains the messages you want to read.

The message header shows who sent the message, when, who it was sent to, and other information. Icons indicate whether the message has an attachment and the sender's Google

When reading messages in a conversation, you can use the buttons at the bottom of the screen to archive the entire conversation

Use the left and right arrow buttons at the bottom of a message to open the next or previous conversation in the Inbox.

● **Work with an attachment**

Gmail can display some kinds of attached images (.png, jpeg, depending on your device) in a message. Others have a Preview or Download button you can use. Depending on the applications installed on your device, you may also be able to download and read a variety of kinds of files, including spreadsheets (.xls), word-processing documents (.doc), or PDF files (.pdf). Other applications may add support for opening other kinds of file.

Attachments you download are stored on your device's USB storage or SD card. Image files are added to albums in Gallery.

Composing and sending a message

● **Compose and send a message**
1. When viewing the Inbox, press **Menu**   and   touch   **Compose**

display the **Forward** icon

Touch to reply to the message

2. Enter all the information that is needed for a message and touch 🖼
   to send the message.

- ● **Attach a photo to a message**
1. Press Menu key on the view of composing message and touch **Attach** on bottom of the screen
2. Touch to choose a picture to attach as an attachment for the message

Replying to or forwarding a message

1. Touch the reply icon [↩] on the view of the conversation that you want to reply.

   Or touch the arrow [◀] to display the **Forward** icon for forwarding a message.

28 Wi-Fi

Connecting to Wi-Fi networks

1. Press **Menu -> Settings -> Wireless & network settings** on any screen.
2. Check **Wi-Fi** item on the top of the screen to turn it on
3. Touch a network to connect to it

   Note:

   - *If the network is open, you are prompted to confirm that you want to connect to that network by touching **Connect**.*

   - *If the network is secured, you're prompted to enter a password or other credentials. (Ask your network administrator for details.)*

Receive notifications when open networks are in range

By default, when Wi-Fi is on, you receive notifications in the Status bar when your device detects an open Wi-Fi network.
1. Turn on Wi-Fi, if it's not already on

2. In the Wi-Fi settings screen, check Network notification.
   You can uncheck this option to stop receiving notification.

Add a Wi-Fi network

1. Turn on Wi-Fi, if it's not already on.
   If you're adding a Wi-Fi network when first setting up your device, Wi-Fi is turned on automatically.
2. In the Wi-Fi settings screen, touch **Add Wi-Fi network** (at the bottom of the list of discovered networks).
3. Enter the SSID (name) of the network. If the network is secured, touch the Security menu and then touch the type of security deployed on the network.
4. Enter any required security credentials.
5. Touch **Save**.
   The device connects to the wireless network. Any credentials that you entered are saved, so you are connected automatically the next time you come within range of this network.

Forget a Wi-Fi network

You can make the device forget about the details of a Wi-Fi network that you added— for example, if you don't want the device to connect to it automatically or if it is a network that you no longer use.
1. Turn on Wi-Fi, if it's not already on.
2. In the Wi-Fi settings screen, touch & hold   the name of the network.
3. Touch **Forget network** in the dialog that opens.

Wi-Fi Settings screen

In addition to the settings described in this section, you can press **Menu** and Advanced Wi-Fi settings as described in "**Advanced Wi-Fi Settings screen**"

● **Wi-Fi**
Check to turn on Wi-Fi so you can connect to Wi-Fi networks. When connected to a network, displays the network's name.

● **Network notification**
Check to receive a notification when an open Wi-Fi network becomes available.

● **Wi-Fi networks**
Displays a list of Wi-Fi networks you've previously configured and those detected when the device last scanned for Wi-Fi networks.

● **Add Wi-Fi network**
Opens a dialog where you can add a Wi-Fi network by entering its SSID (the name it

broadcasts) and security type.

Advanced Wi-Fi settings screen

- **Wi-Fi sleep policy**

Opens a dialog where you can set whether and when the Wi-Fi radio disconnects. Disabling sleep uses more battery power.

- **MAC address**

The Media Access Control (MAC) address of your device when connecting to Wi-Fi networks.

- **IP address**

The Internet Protocol (IP) address assigned to the device by the Wi-Fi network you are connected to (unless you used the IP settings to assign it a static IP address).

- **IP settings**

If you check **Use static IP**, you can use the IP settings to enter an IP address and other network settings for you device manually, rather than using the DHCP protocol to obtain network settings from the Wi-Fi network itself.

29   HDMI

Turn HDMI Function

In default, the HDMI function is turned on. Press Menu->**Settings**->**HDMI Settings**->**Turn on HDMI**.

Use HDMI

1. Tap Video Player icon to open Video Player application
2. Tap any video file you want to watch by HDMI
3. Connect the device and TV with HDMI plug

Note:

- *Before using HDMI, you should make sure that HDMI function is turned on.*

30 Settings
